OBJECTIVE

Cinénova G7BR is part of the legendary Cinénova series, known for its raw power but also transparency. Earthquake designed this amplifier because of the high demand it received from customers.

With a monaural design and bridgeable capability, the **Cinénova G7BR** has a clear sound quality with low distortion. At 8-ohms, the **Cinénova G7BR** outputs 360 WRMS measured with all channels driven. **A whopping 1400 watts @ 8-Ohm (2 blocks bridged).**

INTENDED USE

- ✓ Custom Home Installers & High-End Retailers
- ✓ High-End 5.1/7.1 Home Theater System
- ✓ Recording Studios & Clubs

This rack-mountable amp will blend in perfectly with your existing system. The **Cinénova G7BR** is not just a purchase, it is an investment. The **Cinénova G7BR** will provide you with true amplification no matter how your system changes and upgrades. With the increasingly popular surround sound audio format available with most movies, nobody needs to miss out on the true theater experience.
